

**GOVERNMENT OF PAKISTAN
MINISTRY OF NATIONAL HEALTH SERVICES,
REGULATIO AND COORDINATION**

PRESS RELEASE

Government is taking concrete measure to enhance export of medicines. Health Minister

Islamabad: November 22, 2018- Federal Minister National Health Services Aamer Mehmood Kiani said that the Health & Pharma Sector of Pakistan are one of the top most priorities of current government and our government is taking revolutionary steps for the improvement of Health & Pharma Industries of Pakistan which includes the establishment of new hospitals, up-gradation of services & healthcare setup. On the other hand, we are very keen in improving and enhancing to our pharmaceutical industry.

Minister said our ministry is now supporting this prestigious event as Co-Organizer and we will make sure that this event grows much more with support of government and our ministry and becomes the biggest Health & Pharma Sector event of South East Asia. We have planned and make strategies to invite foreign buyers to this event in-order to give a boost to exports of Pharma Industry.

Minister said Ministry of National Health Services, along with Ecommerce Gateway Pakistan assure you all that we will make untiring and continuous efforts to make it a huge success. We have a plan to invite the Honorable Prime Minister of Pakistan to inaugurate this International Exhibition which will surely add more hype to this event.

Minister said if we want to give a boost to our industries, the best platform is International Exhibitions and Conferences which are subject specific.

Minister congratulated the organizers of Health Asia International Exhibition for conducting such a mega and important event which have been very instrumental for the growth of our industry as well as the economy of Pakistan.

Government is committed to enhance the existing export ratio of the Pharmaceutical industry. In this regard every possible support will be provided by the government.

Nursing University and four new hospitals are being established in Islamabad. Government will bring 25 Million population of Pakistan under the protection of health cards in coming few months. This will help to decreasing the load on public hospitals. Government new reforms in health sector will ensure provision of best medical services to the people.
