

EXPANSION OF ICT MODEL OF ‘INTEGRATION OF FAMILY PLANNING INTO PRIMARY HEALTH CARE (PHC) SERVICES’

A notification was approved about the proposed plan for Expansion of ICT Model “Integration of FP/PPFP into Primary Health Care (PHC) Services. The implementation of the plan will begin immediately by Jhpiego with the support of UNFPA. The plan includes the model of integration of family planning into Primary Health services to be expanded to all PHCs i.e. 13 BHUs. To strengthen the integration model, the following additional interventions are being proposed:

1. Capacity Building of Service Providers in BCC and IPC
2. Training in Supportive Supervision
3. Revitalization of Male Mobilizers in ICT
4. Support for extended hours of Services by the Rural Health Centers (RHCs)
5. Training of LHWs of new sites
6. Strategy for Non-LHW areas
7. Strengthening of Referral for FPs
8. First Dose of DMPA IM by LHWs
9. Public Private Partnership and referral mechanism
